India has no good reason to overturn its nuclear doctrine.
(10 Marks)

(10 Marks) India has adopted formal nuclear posture of "No First Use" as per the draft prepared by K. Subramaniam and adopted in 2003. Recent demands by many strategic experts like Sushant Sareen and indicated by Defence Minister to change the NFU policy. It is argued that in face of Pakistan's irrational behaviour through continued use of non-state actors as state sponsored terrorism and using its nuclear weapons as umbrella leaves title scope for India to pursue NFU. However with Balakot Airstrike India has already called out Pakistan's nuclear bluff. Although Pakistani Army

India's role in UN Peace keeping.

10 Marks. UN was developed on the Concept of "Collective Security" as per liberal Institutional theory of peace. But Gailure of UNSC and internal civil wars has created the need for UNPKF as: ærgued by <u>Dag Hammerskjold</u>. India has been active participant in UNPKF operations. It is the second largest contributor to troops and Indian missions are amently serving in atleast 14 UNPRF missions ranging from Somalia to libye. India has also provided training facilities to other countries armed forces and has developed a credible record by adhering to the UN's guidelines of using

"An enduring dilemma of India's Afghanistan policy has been the choice between those calling for the direct engagement with Taliban and those who believed that there is no reason for Delhi to join the international stampede to embrace Taliban." In light of the above statement, suggest what should be the key element of India's playbook in the critical geo-political space?

20 Marks

Kudyard Kipling called Afghenistan graveyard of empires It has been the land of great games since last two hundred years. As US withdraws and hands over Afghanistan to Taliban, Harsh Pant calls this as end of one game of the start of This has significant impact on India des India had invested heavily in stability of the region in last 2 decades. More than a \$100 Bn have been spent. As for MEN India - Afghanistan Friendship Book 2019': India has built Afghan barliam. ent, Salpara Dam, the goalend highway, used Chabahar port to export grains and connected road from Zaranj-Delaram.

C.R. Mohan pins this dilemma on flaved foreign policy of putting all eggs in one basket that means trusting US too much for our own security. As Henry Kiasinger held "It is dangerous to be an enemy of US but it is fatal to be it's ally." India is learning it the hard way India's bolicy oftion to come out of this dilemma as explained by S. Critically examine the role of geographical factors on India's foreign policy. Do you think India's continental grand strategy is facing an existential crisis and it is high time it needs a maritime focus?

Foreign policy of a country is determined on the basis of its national interests (Morgenthan). Each state's national interest as given by swedish Political scientist Rudolf Kyellen is primarily influenced by its geography geopolities is the discipline that studies role of geography on international Indian foreign bolicy is based upon India's centrality in the South Asian region. Thus geography determined India's good relations with Russia, Taken, Iran as being neighbour to a neighbour and it has also led to big brother syndrome among Nepal & Bhutan & sri lanka. However this grand continental strategy is only fartily useful given the increasing maritime chellenge from the east while Indian backgard of Indian Ocean.

Indian Ocean has become a hotspot of geofolitical competition with Chinese

Critically examine the impact of Abraham Accords on India's West Asian diplomacy. What has been India's response to the accords?

15 Marks

West Asia is called as the most sensitive region of International Politics The term coined by Afred T. Mahan was a guide to UK to ensure its control over the region to moure 'Pax Britannica' as the region controls the most important trade routes UK's decolonisation policies of divide and rule through sikes-Pieot line exploiting multiple fault lines of thia-sunni conflict of the region & cuation of state of Israel as per Balfour declaration has led to Arab-Tew conflict. The region has seen 4 wars albiet ending the victory for of Israel over multiple efforts of Pan-Arab unification. Abraham Accords signed between Israel -UAE have altered the geopolitical alignment in the region. Brokered by the US 4 President Trump in particular, this is a logical fallout

of growing proximity between July monarchies 4 Israel. Now even the Arab states have Ecognised Israel (UAE, Bahrain, tacitly even Saudi Arabia). Hence India's already dehypenated stance on Garael Palestine issue has neceived sein forcement. During 1950 - 1990 India was criticized for being more Arabic than Arabs themselves for taking the cause of Polastine statehood India limited relationship with Israel due to domestic compulsions of not upsetting the minorities. However as AB Vajfayre held Godia-Garael' are natural allies Abraham Accords will lead to two consequences for the region of thus have implications for India: (A) Greater isolation for Gran (8) Increased rivalry between Turkey & Saudi for claiming leadership over Political Golam. Enumerate some of the recent developments in the relations between Japan and India. To what extent India's decision to withdraw from RCEP creates dilemma for Japan?

Irdia & Japan are undergoing a 'cherry blossom time" (Amitabh Mattoo.). Being an every of an every (China) Tapan & India make of an ideal partnership as per Kautilya's Mandal siddhant. Japan is the world's only fost modern economy of society. It has the required capital but needs economic space. It has the required technology but needs adequate talent India offers Tapan an ideal investment destination and India is bound to gain from Japanese expertise to fully utilise its period of demographic dividend India & Japan have signed a Comprehen site Economic Partnership agreement Japan is helping in India's smart city program,

and also in strategic Al N idends. Fapan has offered a crevincy swap agreement to aid in mutually beneficial trade. Japan's fear of closed seas hostile Chine of its claims on senkaku islands and an in creasingly transactional pretreating USA creates concerns. Japan is thus caught in a dilemme of bandwagoning with rising hover China or <u>hedging</u> against it with the help of traditional security umbrella of USA. Japan has joined RCEP without Irdia but with hesitations. Jan Brenner Calls Tapon - South Koree relations as "frosty" and it already has an FTA with ASEAN. Indian market was the biggest incentive for Tapan to join RLEP. But since USA has withdrawn from TPP 4 WTO is cumbling it is left with no other choice but to join a grouping dominated by China.

India's decision to remain out of RCEP shows that it is retreating from its Act East Policy. Comment. Support your view with convincing arguments.

India decided to opt out of RCEP despite participating since its inception in 2012 Takarta Summit. Given the liberal international order is in a state of chaos (Harsh Pant) regional multi-lateral economic integration have become the norm. India's decision is criticised by Shyam Savan as being 'short-sighted! India justified the decision due to its increasing trade defiat with ASEAN, China, South Korea, Japan and even Australia & New Zealand. But as Shyam Savan argues Economic Survey 2018-19 suggested that India benefitted from FTAs due to increased competition of creative destruction, India's commitment to Act East Policy has been questioned by Kishore Mahbu.

as "deeply disappointing" for ASEAN retions. India provides the perfect counter weight to Chinese dominance. However S. Taishankar has defended India a position as based on pragmatism Indias concerns were not alleviated and hence instead of a bad deal; India opted for a no deal. The fear of farmers & dairy industry who are not as competitive as in Australia & New Zealand; manifacturing industries concerns about cheap flooding oftgoods from thina and severly curtailed commitments in services sector d'immigration norms led India to decide not to join. Shir shankar Menon argues India's decision is based on a belief that Indian

market is itself so huge that looked companies

should come here to cater this. But as pointed by him, companies / MNCo not only eye local but regionel market before making investments
