## Crash Course & Test Series - 2021

### Test 8

Time Allowed: 3 Hours

Max Marks: 250

Name

ANKITA

Test Date

15/11

Email Address

UPSC Roll No

0611897

### Instructions:

1. There are EIGHT questions divided in TWO SECTIONS and candidate has to attempt five questions in all.
2. Question Nos. 1 and 5 are compulsory and out of the remaining, any three are to be attempted choosing at least ONE question from each section.
3. Content of the answer is more important than its length.
4. Answers must be written in the medium authorized in the admission Certificate, which must be stated clearly on the cover of the booklet in the space provided.
5. Content of the answer is more important than its length.
6. Any page or portion of the page left blank in the Question-Cum-Answer Booklet must be clearly struck off.
7. All parts of the question should be written at one place itself.
8. Write the test in exam atmosphere.
9. **Filling all the details in BLOCK LETTERS is mandatory.**

1a Political sociology is a modern and inter-disciplinary approach to comparative politics. It studies the social basis of power and politics, including identity politics, social movements, pressure groups etc...

## Relevance

It provides a more comprehensive and inclusive approach to studying politics as politics is not practiced in a vacuum but embedded in societal relations and networks.

# U.P.S.C.

It is particularly relevant to studying comparative politics in developing areas as these are Prismatic societies (FW Riggs) where sociological factors cannot be ignored in politics.

For instance, in India, politics cannot be studied by ignoring caste (Rajni Kothari) or religion (Christopher Jaffrelot).

In contemporary times, with rising social unrest, and identity politics even in the West, we are seeing works like "identity: the struggle for dignity" by Francis Fukuyama.

b/ The concept of over-developed state was given by Hamza Alavi, a marxist scholar of the Relative Autonomy School, in the context of South Asian states.

Alvi pointed out that post colonial states like Pakistan are over-developed because their political and economic systems do not grow organically in sync, as happened in Europe.

Political systems were made <sup>modern</sup> strong by the colonial elite for efficient 'drain of wealth' and administration of a restive people. ~~mea~~ Thus we

# U.P.S.C.

UPSC  
(Question No.)

प्रश्न संख्या

in this part)

have Preventive detention laws,  
Official secrets Act, Sedition laws,  
Centralised bureaucracies.

Meanwhile, the economy stayed  
feudal and traditional. This  
tendency strengthened post-  
independence due to centralised  
planning.

Thus the state is bonapartist,  
an equilibrium - maker which  
is not the instrument of any  
one particular class. In Pakistan it  
is the equilibrium maker between  
the civilian - military oligarchy.

† Sudipta Kaviraj has applied the  
theory in the Indian context.

c) Global feminist movement is a civil society movement—concerned with rights of women and peace, by putting women's experience at the centre of decision making.

The Taliban in Afghanistan is a medieval force, bent on imposing its fundamentalist interpretation of the Sharia. Its earlier avatar had banned women from schools, workplaces; arranged forced marriages, enforced a strict dress code and code of conduct. It impinged on their autonomy by preventing them from leaving

# U.P.S.C.

प्रश्न संख्या

in this part)

the house without a male guardians.  
Flogging and sexual violence  
were common. The experience  
of Nobel laureate Malala  
Yusufzai brought its atrocities to  
the limelight.

Taliban 2.0 might be presenting  
a soft face but if experience of  
women in rural Afghanistan  
under Taliban is anything to  
go by, it will be a repeat of the  
same.

The feminist movement - will have  
to insist that any recognition <sup>to the regime</sup> is  
contingent on protection of  
women's rights as human rights.

# U.P.S.C.

1d The G-20 is a grouping of the world's major powers, whose ideas and actions shape the entire world.

Significance of "People, Planet and Prosperity" Agenda

\* Planet - the 6th Assessment report of the IPCC has shown the urgency to take climate action. Thus, the G-20 agenda puts climate action at the centre, in line with principles of common but differentiated responsibility, and differential capability.

\* People - a human-centric

# U.P.S.C.

globalisation agenda that takes care of health needs is essential in the context of pandemic vulnerability.

\* Prosperity - through greater connectivity and trade that puts the environment and labour standards at the centre.

ie Nuclear deterrence is a <sup>psychological</sup> concept developed by game-theorists which assumes a rational actor model. It suggests to the adversary that "victory will come at a cost not worth paying."

## Relevance in 21<sup>st</sup> Century

Its relevance is questioned due to various factors.

① Non-state actors - Henry Kissinger suggests that the rational actor model will not apply to suicide bombers.

② Liberal institutionalists feel that mechanisms like Nuclear Proliferation Treaty (NPT) are key to preventing nuclearisation.

# U.P.S.C.

Thus states do not need to acquire nuclear weapons

③ Social constructivists point to the nuclear taboo (Nina Tannenwald)

They point out that this taboo prevented even USA, the superpower <sup>from</sup> ~~against~~ using nukes against Vietnam

Yet, Realists continue to believe that nuclear deterrence is the key to preventing world wars. But Mearsmeier and Kenneth Waltz concede that they must be limited to 1<sup>st</sup> generation ~~the~~ nuclear states.

# U.P.S.C.

Global  
Governance

प्रश्न संख्या  
(Question No.)

2a

(Don't write anything  
in this part)

Theories of international politics are commonly called security theories, for security is the most important strategic imperative; as held by Thomas Hobbes. Yet, there is great disagreement regarding the understanding of security, the threats to security and the best way to ensure security.

Security lies at the heart of the realist approach. Hans Morgenthau in "Politics among Nations" (1948) had held that survival is the

# U.P.S.C.

prime national interest, to be achieved through accumulation of power. The way to maintain state security is through deterrence, diplomacy and balance of power. They hold that the primary threat to states is from other states (~~for~~, not NSAs).

Liberals on the other hand believe security should include human security and to be achieved through greater interdependence and integration (trade, security community). Milton Friedman in his context gave the golden arches theory.

# U.P.S.C.

इस भाग में कुछ  
न लिखें  
(Don't write anything  
in this part)

प्रश्न संख्या  
(Question No.)

Marxists also focus on human security but locate the threat in the nature of capitalist global system. Rosa Luxemburg held that capitalism, militarism, imperialism are linked.

The reflectivist school/critical scholars, ~~how~~ particularly feminists question the problem solving approach of the positivists/traditionalists. They believe that the masculinist bias of "male-stream theories discount the human experience, particularly that of women & children. Peace becomes a casualty.

They believe that masculinist

# U.P.S.C.

lens of security decisions led to wars - for "men make wars, as wars make men". JB Elshtain in "Sex and Death" has suggested this.

Thus to ensure peace women must be included in decision making apparatuses, and the biases must be confronted. UNSC resolution

10395 affirms the role of the feminist approach in ensuring pep security.

Lastly, post modernists (Richard Ashley) suggest "Anarchique Problematique" i.e. the discourse around anarchy is more likely to lead to war.

For a matter as complicated as security, all perspectives have to be accounted for ever lasting peace

# U.P.S.C.

26

Morton Kaplan's Systems Approach belongs to the behavioural / positivist school in international politics. It takes inspiration from David Easton's "systems approach to Political life".

Kaplan's goal was to present a grand theory to explain the ins and outs of international politics. He describes a system as an analytical entity to explain the behaviour of states, with regulative, integrative and disintegrative aspects.

# U.P.S.C.

प्रश्न संख्या  
(Question No.)

इस भाग में कुछ  
न लिखें  
(Don't write anything  
in this part)

He presents various models of the international system such as loose bipolar, tight-bipolar, Westphalian model, world govt model, Universal Actor model, etc..

However, Kaplan ~~is~~ has been criticised by various scholars.

Stanley Hoffman ~~is~~ only sees it as a conceptual framework with no deep analysis or insights. It does not even cover the "basic stuff" of international politics.

It does not even fulfil the requirements

# U.P.S.C.

प्रश्न संख्या

24 South Asia is generally understood as a common cultural and geopolitical arena, shaped by the eastwide colonial British Raj. It is one of the poorest and least integrated regions of the world.

Reasons behind poverty and solutions

Poverty in South Asia, and hence its solution can be explained from different perspectives.

From ~~the~~ neoliberal perspective

(Arvind Panagariya, Jagdish Bhagwati)

a long legacy of state-led centralised planning led to

# U.P.S.C.

perpetuation of poverty since independence. For instance, in India the head count number of poor people rose ~~to~~ in the first three decades. This is contrasted with the experience of Japan, South Korea and other East Asian Tigers who opened up to the world.

Raja Mohan also points out that socialistic pattern prevented economic integration of the region.

Social liberals like Amartya Sen point to a lack of participative & deliberative democracy leading to poor investment in public goods & services and capacity

# U.P.S.C.

प्रश्न संख्या  
(Question No.)

प्रश्न संख्या में कुछ  
न लिखें।  
(Don't write anything  
in this part)

building. He shows the experience of Kerala, and even Bangladesh to substantiate his contention.

Marxists however challenge these narratives. For them, an absence of land reforms & other pro-people measures are the culprit. Hamza Alavi has shown South Asia's states are instruments of various elite groups (civilian oligarchy, bourgeoisie, feudal class).

Factors like environmental disasters, insurgences etc. can also be seen as factors.

Thus the solution lies in 'globalization with a human face', land reforms, and most importantly, greater economic integration.

The region was a crown jewel for British Raj & can be restored to its glory.

5) Agricultural cooperatives  
unlike China, its approach is  
bottom's up, benign, and not  
extractive.

Scholars like C Raja Mohan point  
out that there is a lack of clear  
strategy. It is often said that -  
India promises, but China  
delivers! For instance, not a  
single project has taken off  
under the Asia-Africa Growth  
Corridor with Japan.

India needs an institutional  
framework to build knowledge and  
coordinate  
collaborate on delivery of  
promises made.

5b ~~India~~ "The biggest achievement  
of the last 20 years in Indo -  
Russia relations has been TRUST"  
- PM Modi (2021)

Indian - Russian friendship  
was solidified through the Treaty  
of Peace, Friendship and Cooperation  
(1971), even though India had  
always had an admiration for  
Russia since colonial times.

Since then, the world order has  
undergone changes from bipolarity  
to multipolarity, but Indo-Russia  
friendship ~~has~~ stood the test of  
time.

# U.P.S.C.

Putin's visit in 2001 led to a "Strategic Partnership" after a brief lull in relations under Boris Yeltsin.

Since then relations have gone from strength to strength.

(i) Defense relations - 60% of Indian equipment, aircraft carrier (INS Vikramaditya), ~~an~~ nuclear submarine, S-400 Triumf (inspite of US pressure), joint development (BrahMos).

Russia continues to supply despite Chinese protestations.

(ii) Science & technology (Gaganyaan)

(iii) Nuclear power development.

(iv) Putin made his second in person visit outside Russia to India - huge symbolic gesture.

To further solidify, trade target of 300 USD must be reached

SC

Latin America due to distance and little P2P connect has stayed far from the Indian mindset.

It largely engaged with Brazil on platforms like BRICS, IBSA, G-20.

In recent years, India has sought to become a major player in the region.

5d Japan, going by Kautilya's  
mandal biddhant is India's  
natural friend.

Japan - India relations are  
built on the pillars of ensuring  
freedom of movement in the  
indo-pacific, trade and investment,  
official development assistance.

It was Shinzo Abe who had presented  
the quad as the dynamic &  
coupling of the two seas in  
the Indian Parliament. Being a  
Trading state (Rosenau) with  
Constitutional limitations on

¶ defense focus, Japan considers India an important security provider in the region.

Both countries suffer from a security dilemma vis a vis China (Senkaku Islands); and thus are drawn closer.

Japan is the only foreign power allowed to invest in the sensitive North East.

India & Japan work together in Myanmar and Sri Lanka for infrastructure development.

Issues such as delays in ambitious aircraft negotiations, red-tapism and other issues in investment—must be overcome, as pointed out by Amitabh Mattoo.

# U.P.S.C.

5e Afghanistan is under the control of ISI backed Haqqani Taliban dominated by Sunnis. It is also reportedly populated by the IS-K, Al-Qaeda, etc.

Such a situation creates security issues for both Iran and India. Sunni-majority Iran shares a border with Afghanistan. It seeks protection of Hazara claims in the new Afghanistan, and fears a refugee crisis on its borders.

India wishes to deny Pakistan its strategic depth, prevent export of extremism into its borders.

# U.P.S.C.

एक वाक्य में उत्तर  
लैखिक  
(Don't write anything

It is also home to various non-state actors, ~~who may be~~ and their benefactors who may be exploited to destabilise India's pluralistic society.

Thus, for its security India stays engaged with the region. Earlier it would merely see it as a "petrol pump", but with American retrenchment, rise in India's capabilities and stature, India is no longer a balancer but a decider (S Jaishankar).

It undertakes counterterror cooperation with UAE, Saudi Arabia, Israel, along with NSA meeting. Israel sells important defence systems like Barak & Spyder missiles.

## Economic links

West Asia is a storehouse of hydrocarbons. 60% of India's crude

oil imports come from Saudi Arabia. India is also leveraging

"Khaleeji capitalism" i.e. the desire of Arab monarchies to diversify

away from oil using their sovereign wealth funds (ARAMCO investing in RIL).

Indian companies like L&T, Tata motors have a presence in the region.

ONGC has stakes in oil fields.

India also has technological cooperation & agri-tech cooperation with Israel (i2t2).

meanwhile

India has done relatively well in the region

# U.P.S.C.

प्रश्न संख्या  
(Question No.)

इस भाग में कुछ  
न लिखें  
(Don't write anything  
in this part)

It has been suggested that the Abrahamic Accords open the door for India - Israel - UAE cooperation in emerging tech like semi-conductors.

Diasporic links - over 50% of Indian diaspora are based in West Asia; along with ~~50%~~ over significant remittances that fuel the ~~the~~ economy, ~~the~~ skills of returnees, and their investment in real estate.

However there are also issues due to nationalisation policies like Nataqat leading to job losses, poor treatment of semi-skilled / unskilled labour etc.

It is never easy to navigate the choppy waters of West Asia but

choppy

64 India-USA, once estranged democracies (Dennis Kucinich), have overcome the hesitations of history, such that they now have a comprehensive global strategic partnership. However, there continue to remain tensions and differences

Convergences.

With the rise of China, its aggression in the Indo Pacific (South China Sea), and on India's Himalayan borders, US-India have found a common cause - balancing of China (Mearsheimer's idea of off shore balancing).

# U.P.S.C.

A recently declassified Trump administration strategy points out - "a strong India... can balance China in the Indo-Pacific theatre."

Thus, India has joined the Quadrilateral Security dialogue, been designated "major defence Partner", granted "Strategic Trade Authorisation", entered into four foundational agreements (LEMOA, COMCASA, BECA, USMOA). From 500 million USD in 2008, US-India defence trade has reached over 21 Billion USD.

★★ These divergences strengthen India's policy of strategic autonomy and issue-based alignments.

# U.P.S.C.

Since economic security and national security are linked, US-India are also exploring supply chain resilience in emerging technologies.

Divergences - lack of "overarching consensus"

There are some creative tensions. In the Indo-Pacific, India supports an "open, inclusive and free" Indo-Pacific, implying a more accommodative posture towards China than what Washington desires, as India shares a land border with the middle kingdom.

~~The~~ With respect to Russia, USA sees it as a "revitalised" adversarial power but India depends on it for 60% of its equipment & other cutting edge equipment that Washington denies India (nuclear subs).  
US retrenchment from Afghanistan has left India exposed on its west. (★★)

the region, ~~Its agenda includes~~  
A US strategy paper had acknowledged  
that "a strong India, in partnership  
with like-minded nations like Japan  
and Australia; can balance China."

Quad's agendas include ensuring  
resilience of supply chains, cooperation  
on emerging technologies and  
semi-conductors (working groups),  
and cooperation on infrastructure  
development. India can take  
advantage of this geo-economic  
reorientation away from China.  
USA <sup>and Australia</sup> is key to intellectual property,  
Japan for finance & high end  
manufacturing, and India brings  
scale and human resources into

the picture.

militarily, also the Quad presents opportunities for improvement.

Satellite data sharing was discussed at the leader level meeting. India has various logistics agreements with Quad countries, 2+2 ministerials, joint exercise (malabar), defence technology partnerships (DTTI).

For the Quad and India, "function before form" must be the mantra.

India must sign an FTA with Australia, and enter into a trade deal with America. It can bridge the gap between Quad & the global south, Asean for enhanced legitimacy.

# U.P.S.C.

7e According to the liberal school of International Relations, Regional integration is key to ensuring peace and prosperity. Functionalism and sociological liberalism are two ways to ensure this. But South Asia continues to be the least integrated (except West Asia) with intra-region trade only 5% of total trade.

SAARC and BIMSTEC are two vehicles to achieve regional integration. SAARC has ~~both have~~ been hijacked by the dilemma of comprehending India's role as a stepping stone or a stumbling block.

# U.P.S.C.

India as stumbling block

SAARC was originated by Zia-Ur-Rahman, the Bangladeshi PM with the intention of balancing India due to its "big brother" image (real or perceived).

Even today, South Asian states can be wary of the asymmetry of power with India, <sup>which</sup> continues to be seen as a "big brother" who interferes in internal matters (Madhesi issue, Tamil-Sinhala issue, Bangladesh war of independence).

To balance India, China is sought to be invited to join SAARC, which is anti-thetical to India's interests.  
led by Pakistan, states come to
